

Quality Policy

Rhino Dive Pty Ltd is a commercial diving company that completes varied works including underwater construction and maintenance, marine engineering and salvage, underwater surveying and inspection, marine civil construction, and project management. Established in 2011 and providing services anywhere in Australia, Rhino Dive Pty Ltd bases its company strategy around retaining the experience, skill and management systems of larger and more expensive providers; maintaining exemplary safety practices; and consistent achievement of customer satisfaction.

To achieve these aims, with the ultimate outcome of customer satisfaction, Rhino Dive Pty Ltd has established, implemented and maintains a quality management system (QMS) based on the requirements of ISO 9001:2015. In line with the requirements of the standard, Rhino Dive Pty Ltd commits to the following:

- Satisfying applicable requirements placed on it by itself, customers, relevant standards (including ISO 9001:2015), and relevant statutory and regulatory authorities
- Continually improving the QMS.

As one means of facilitating quality management and achieving continual improvement, Rhino Dive Pty Ltd sets itself quality objectives at relevant functions, levels and processes, which it endeavours to achieve. Quality objectives are recorded in the organisation's current Strategies and Objectives Register and are reviewed for achievement at QMS management reviews.

This policy has been implemented throughout Rhino Dive Pty Ltd and is available to all workers, as well as interested parties.

This policy is reviewed for continuing suitability via Rhino Dive Pty Ltd's Control of Documented Information Procedure.

Signed,

Ryan Kelly
Executive Manager
Rhino Dive Pty Ltd
